Orphan Asylum and St. Vincent's. The

start was made from the headquarters

of the Long Island Auto Club at Prospect Park West and Union Street, Brooklyn.

Through Prospect Park the procession went, the bands playing merrily, the children shouting and waying flags. Then there was a sweep down

the Ocean Boulevard and the caval-

corners and every other concession, was theirs for the asking.

All day they sang and shouted and romped and played. Grownup folks had to step aside, and the dull day did not in the least interfere with the happiness of the kiddles. It was a tired lot which went back to the autos toward the close of the afternoon.

Give Your Child's Feet the Proper Care

OU owe it to your children to see that they wear the proper shoes. The bones in a child's foot are easy to injure, consequently great care should be taken in the election of shoes.

The Coward Arch Support Shoe for children supports the arch, strengthens weak ankles and gives the bones and muscles free play to develop into a shapely foot.

Infinite Care

We could not take more care in grinding lenses if they were intened for the Lick Telescope.

If you could only see the "infinite care" which goes into the making of each pair of Harris Glasses, you would understand ONE of the reasons why we have built up the largest Optical Clientele in the World.

Harris artisans are for the most part educated in our own work-rooms. It takes a long time to break habits formed elsewhere, and we must have things done "our way"—the

"This is not my baby," she said half an hour later to Lieut. Shevlin in the East One Hundred and Fourth Street. Police Station. Then she told how she had acquired the infant, who is about three weeks old.
"Really, I don't want to take him home," she added.
The matron took the baby to Bellevue.
